

How to Access Your Textbooks with a Browser

You can use an internet or web browser to access your books on any device. Many users prefer to access their books this way. If you are experiencing problems with the TextbookHub app, you can also view your account and all your books via a web browser on any device.

We recommend you use the Chrome browser

If you use the TextbookHub app on Chromebook, you already have the Chrome browser installed on your device. If you use another kind of device, you may need to download the Chrome browser.

1. Using Chrome, navigate to your school's unique TextbookHub URL. Your teacher can tell you what the URL for your school is.
