

How to Delete Books (Chromebook)

Note: Deleting a book from your device and re-downloading it should be considered a last resort when troubleshooting issues with your book as you might lose the annotations you have made in the book.

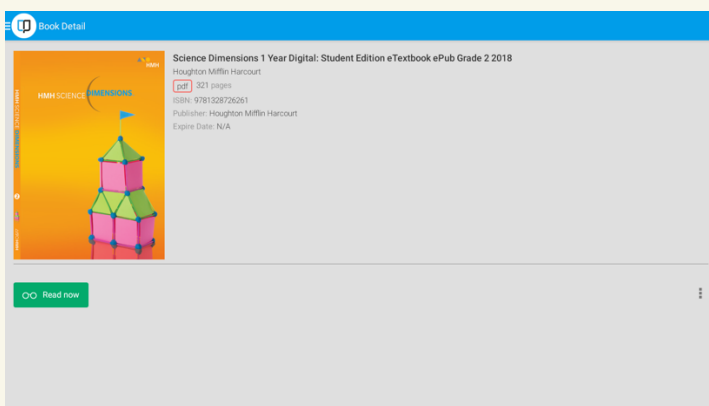

1. Login to TextbookHub on your Chromebook.
2. Go to “My Bookshelf” and select the book you wish to delete by tapping on the book cover.

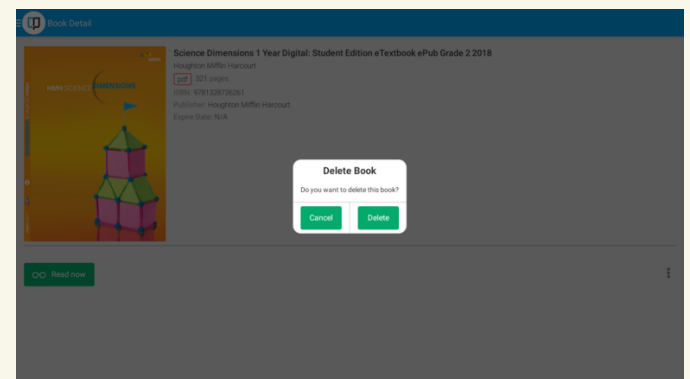

4. Locate and tap on the options menu (three vertical dots, lower right). The **Delete from Device** option appears. Tap it.

3. The book detail panel opens:

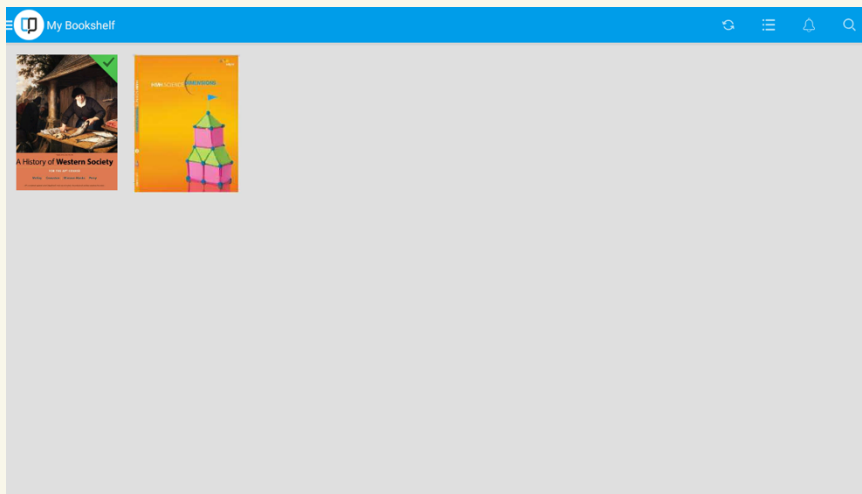

5. A confirmation pop-up will appear asking you “Do you want to delete this book?”. Tap on the **Delete** button.

6. Your book has been deleted from your device. Notice that the deleted book no longer has a green checkmark in the upper right corner of the cover.

NOTE: You can get your books back again by re-downloading them.
